

19" plastic cover panel 1U

Block expensive cooling airflow in your
19" rack with low-cost, clip-on front panels

Your benefits:

- blocks undesired air-flow through open and unused spaces in your data center rack
- reduced cold-air consumption for lower energy cost (see BITKOM guideline "energy efficiency in data centres")
- optical upgrade due to facing the free 19"-spaces
- the attractive round shape design can be supplemented with your own logo by digital printing
- short assembly and disassembly time due to tool-free Quick-Clip-System
- protection again dust
- fire protection classification acc. to UL94 V-0
- reduction of assembly time and weight compared to conventional metal front panels

Material: Lexan 920, fire class acc. to UL94 V-0, ROHS-compliant

Cover panel RAL 7016 anthracite grey		Cover panel RAL 7035 light grey
